OutOfBounds

The place where your programming doubts meet their end!

Today you ask, tomorrow you answer!

Share your knowledge and help others to discover the joy of coding.

You will go from a Young Padawan to a Jedi Master, at least among all the other computer enthusiasts…

Just started coding? Learning a new language? Been doing it for a while but still don't understand some stuff?

Go to **OutOfBounds.com**!

Search & Browse our questions and answers. Most likely someone else had the same doubt before…

Better than that, their question was almost certainly answered by some of our many users.

You can be on your way to enlightenment in just a few minutes.

Can't find what you are looking for? No worries, just **ask**, and someone will **answer**…

But what if my question is dumb? Maybe the solution is really simple and easy…

We all need to start somewhere, the only thing that is truly dumb is to stay ignorant for fear of asking.
